NATURERICH, INC. DISCLAIMER

The NatureRich product line is based upon a theory that by reducing your exposure to the chemicals found in the many products that you use daily, and replacing these products with natural products that simply alter the pH balance in your body from acidic to alkaline, it is believed the body will experience positive effects. Any product testimonials included in NatureRich materials are not necessarily representative of all of those who will use our products, nor are these testimonials intended to make claims that these products can be used to treat, cure, mitigate or prevent any disease. These claims have not been clinically proven or evaluated by the FDA, yet these testimonials provide the real life experiences of those who have used our products. Individual results may, of course, vary. We encourage you to consult with your health care provider. NatureRich, Inc. does not guarantee earnings or earnings potential. Individual earnings are directly dependent on the amount of effort invested by each independent distributor of NatureRich products.
